

MOHAMAD SYAZWAN BIN MOHD SHUKRI

SOC Analyst | CompTIA Security+ Certified

Penang, Malaysia | syazwanshkri1@gmail.com | linkedin.com/in/syazwan-shukri | mosyaz.my

PROFILE

SOC Analyst at BitRanger Sdn. Bhd. through Khazanah Nasional's K-Youth Development Programme, with prior hands-on SOC internship experience at Heitech Padu Berhad monitoring SIEM alerts, investigating incidents and blocking threats across enterprise firewall, WAF and endpoint security tools. CompTIA Security+ certified with a networking foundation (MTCNA) and a Bachelor's degree in Computer System Security.

Core skills: Alert Triage · Incident Investigation · Log Analysis · IOC-based Threat Hunting · Firewall & WAF Blocking · Endpoint Monitoring · Threat Intelligence

WORK EXPERIENCE

SOC Analyst | BitRanger Sdn. Bhd. (CyRes, USM, Penang) Aug 2026 – Present

- On-the-job training under Khazanah Nasional's **K-Youth Development Programme**, with BitRanger as host company.
- Working in BitRanger's Security Operations Center on security monitoring, alert triage and incident investigation.

SOC Analyst (Intern) | Heitech Padu Berhad Oct 2024 – Feb 2025

- Monitored and triaged security alerts in **Stellar Cyber** and **RSA NetWitness** SIEM to identify potential threats.
- Investigated incidents by correlating logs, alerts and threat intelligence to assess impact and recommend mitigation.
- Conducted IOC-based threat hunting to detect ransomware, malware and other suspicious activity.
- Contained threats by blocking malicious IPs on **Palo Alto**, **Huawei** and **Sangfor** firewalls, and web-based attacks via **FortiWeb WAF**.
- Monitored **Bitdefender** and **Trend Micro Deep Security** endpoint protection against malware and unauthorized access.

Telecommunication Drafter Engineer (Intern) | ECHO Broadband Sdn. Bhd. Mar 2021 – Jul 2021

- Drafted fiber optic network routes on geographical maps using Smallworld PNI, Netwin and Excel, and produced Single Line Diagrams (SLD).

CERTIFICATIONS

CompTIA Security+ | CompTIA Dec 2023

MikroTik Certified Network Associate (MTCNA) | MikroTik Dec 2020

EDUCATION

Bachelor of Information Technology (Hons.) in Computer System Security Oct 2021 – Feb 2025

Universiti Kuala Lumpur, Malaysian Institute of Information Technology (UniKL MIIT) | CGPA 3.50

Dean's List: Semesters 1, 3, 4 and 6

Diploma in Electronic Engineering (Data Transmission & Networking) Oct 2018 – Aug 2021

MARA Japan Industrial Institute (MJII) | CGPA 3.55

Dean's List: Semesters 1, 3 and 4 · Gold's Award · Director's Award

PROJECTS

Crowdfunding Platform Using Blockchain | Solidity, MetaMask, Polygon

- Developed a crowdfunding web application using smart contracts on the Polygon Amoy testnet to make fund allocation transparent and tamper-resistant.
- Integrated MetaMask wallet authentication to secure user access and transactions.
- Mitigated OWASP smart-contract vulnerabilities, including integer overflow and unchecked external calls.

Smart Dustbin Using ESP32 and IoT | ESP32, C++, Blynk

- Built an ESP32-based smart bin that notifies cleaners through the Blynk app when full, with an automatic lid using ultrasonic sensors, an LED fill-level indicator and audio prompts.

TECHNICAL SKILLS

SIEM	Stellar Cyber, RSA NetWitness
Endpoint Security	Bitdefender, Trend Micro Deep Security
Firewalls & WAF	Palo Alto, Huawei, Sangfor, FortiWeb WAF
Networking & OS	MikroTik RouterOS, Wireshark, Kali Linux, Windows
Programming	Python, Java, C++, Solidity (basic); Arduino IDE
Languages	Malay (native), English (intermediate)
